## ABOUT ME

Full Stack Web Developer with a technical degree from Universidad Técnica Nacional (UTN) and hands-on experience in building dynamic web applications. Skilled in integrating databases, developing responsive user interfaces, and implementing backend logic with PHP and Java under agile methodologies.

I bring additional experience in business operations, sales, and digital marketing, giving me a strong understanding of cross-functional collaboration and client needs. Recognized for continuous learning, analytical thinking, and delivering results. Open to remote opportunities with international teams.

## WORK EXPERIENCE

- Full Stack Developer – MitoGafas (@mitogafas)** **Oct 2024 – Present**
  - Designed and developed the company’s website from scratch using HTML5, CSS3, JavaScript, PHP, and MySQL.
  - Implemented dynamic product filters, many-to-many relationships, and category-based navigation.
  - Documented processes and created a structured data-loading system.
  - Provided continuous support and database updates for 100+ products.
- Administrative & Commercial Assistant – Calzados Florencia** **Feb 2025 – Present**
  - Managed sales, inventory, and supplier relationships to ensure operational efficiency.
  - Delivered customer support and administrative assistance, improving client engagement.
  - Collaborated in digital marketing initiatives to increase brand visibility.
- Internships & Academic Projects – UTN** **Oct 2021 – Dec 2024**
  - Developed academic web applications integrating frontend and backend.
  - Applied PHP and Java to implement business logic under agile methodologies.

## EDUCATION
