PROFESSIONAL PROFILE

Passionate Full Stack Developer with a technical degree from Universidad Tecnológica Nacional (UTN) and a background in bilingual education. Experienced in building dynamic, user-centered web applications and optimizing business operations through automation. I combine an analytical mindset with a focus on UI/UX design to deliver high-quality, scalable solutions. Motivated by social impact projects and continuous professional growth.

WORK EXPERIENCE

Full Stack Developer | MitoGafas (@mitogafas) *October 2024 – Present*

- Full-cycle design and development of a commercial web platform, managing Frontend, Backend, and UI/UX design from conception to implementation.
- Implementation of advanced category-based filtering, complex many-to-many database architectures, and automated product management systems.
- Technical process documentation and maintenance through structured versioning to ensure long-term scalability.
- Continuous database optimization and support for a catalog of 100+ products.
- Strategic collaboration with marketing teams to synchronize UI/UX deliverables with brand identity.
